

Gumout® High Mileage Oil Treatment *with* Stop Leak

Gumout® High Mileage Oil Treatment is specifically formulated with ZDDP to protect your oil system from the wear and tear often found in high mileage vehicles. It also helps to fight other mileage related performance issues such as oil consumption, leaking, smoking and sludge build up.

Protect your investment and get the most out of every mile with **Gumout High Mileage Oil Treatment with Stop Leak**.

- Cleans and protects engine parts
- Boosts zinc anti-wear additive levels and fights friction
- Provides better engine protection in high-mileage vehicles than engine oil alone
- Helps remove sludge and other deposits
- Provides thicker contact cushion between worn parts
- Helps stop, or reduce, smoke from worn cylinders
- Reduces oil consumption - Slows blow-by and raises oil pressure

OIL TREATMENT CLAIM COMPARISON							
CLAIMS/BENEFITS	Wear/friction protection	Reduces engine noise	Controls/removes sludge & varnish	Improves and/or restores compression	Reduces oil burning & consumption	Viscosity improver	Stops leaks
